From Augusta, Ga., a report comes that two U.S. Soldlers have been hang in Edgefield district, South Carolina, by a posse of citizons. No pretext is given for the outrage. By the lutest accounts, an officer of the army with a guard were on their way to investigate the matter.

The Tribune's special says the friends of Jefferson Davis have sent him a request that he formally petition the President for pardon,

U. S. District Attorney Chandler tonight filed a written request with the President for an order on the commandant of Fortress Monroe to deliver Mr. Davis to the U. S. Marshal, in case the process shall be issued to bring the prisoner before the U. S. Circuits or Judge Underwood, The order will probably be issued in accordance with that request to-morrow. An impression prevails that when Mr. Davis gets into custody of the Marshal and under jurisdiction of the Court, the President ceasea to have control over the prisoner. The President can pardon before or after the trial of the accused, and his authority to release the prisoner is not effected by the question whose custody he may be in.

General Augur will soon be among the Indians who occasioned the alarm to acting Governor Meegher.

These arms are not to be used unless General Sherman shall sanction the call of actual necessity.

The Release of Joff. Davis.

A riot occurred in a liquor salcon in Brooklyn, on Sunday. Two policemen were badly beaten in attempting to arrest the proprietor for violating the exclse law. Some twenty or thirty persons in the room attacked the officers, and a desperate fight ensued. The officers drew their revolvers to save their lives, when several of the rioters drew pistols and threatened to blow their brains out. The officers finally escaped, and going to the station-house, procursed assistance, but on their return the place was closed. The proprietor of the salcon was subsequently arrested. ested. The report of the American Missionary Association is, one million school children among the freedmen who need twenty thousand teachers; there are now, however, less than two thousand in the field; at least 200,000 freedmen have learned to read within the year; receipts of last year \$753,000; of seven months of this fiscal year \$145,000; a larger average of montly receipts is needed in the remaining five months;

The Georgia and Mississippi Injunction Cases.

The Georgia and Mississippi Injunetion Cases.

Washinoton, May 6.—In the Supreme Court this morning, Attorney General Stanberry closed the argument in the Georgia and Mississippi injunction cases. He spoke as to the general principles involved, and denied, as here-tofore, that their cases had any place in court. They were not within the jurisdiction of a court of equity, as such; the constitution provides that there was in them no basis of property on which relief could be given Georgia and Mississippi according to the bills filed. The bills undertake to speak for all the people of those States. Where was the evidence of this fact? Besides the ten Southern States over which the reconstruction acts were to operate, only two were here. It was not known to the contrary, that the remaining States were dispanded for they had not presented in satisfied for they had not presented in the second contractions and the second contractions are second contractions. ry that the remaining States were dis-satisfied, for they had not presented any ry that the remaining States were dissatisfied, for they had not presented any
bill of grievances. The law gave a citizen
right to vindicate himself, and he could
do this as successfully as a State could
for him. The counsel on the other
side had invoked the court to save their
liberties from distruction, to preserve
the integrity of the States on whose behalf they appeared, but, said the Attorney General there was no inherent
power for that purpose in this court,
for Congress might so act as todestroy
the efficiency of the court by impeaching the judges on false accusations, or
by denying salaries, requisite to their
support. It rested with the people, however, to secure the hohesty and right
doing of the Legislature, and on this
basis we must look for the preservation
of the rights of citizens, and of the
guaranteed rights of the States. No
further proceedings took place on the
question before the court adjourned.
The court adjourned immediately
after the conclusion of Mr Stanberry's
argument.

COMMERCIAL AND FINANCIAL.

Weekly Review. nmercial and Financial Chr of Saturday. THE MONEY MARKET.—We have to note a continuance of the ease in monetary affairs reported last week. The banks commenced the week with an increase of 3½ millions in deposits and legal tenders, respectively, and but a nominal increase in loans, notwithstanding that during last week the balance in the Sub-Treasury had been augmented nearly eight millions, and there appears to be nothing in the condition of exchanges with the interior to change this tendency toward ease. There has been a decidedly more active inquiry for money for the purpose of stock speculation, and this has checked the tendency toward lower rates of interest. Since the 1st Instant, the purchase of gold from coupon holders has also caused an increased demand for loans.

The prayabling expectation is that THE MONEY MARKET.-We have to

also caused an increased demand for loans.

The prevailing expectation is that the market will for some time retain it its present ease. The amount of produce coming from the interior is quite limited, probably not sufficient to liquidate the indebtedness incurred in the New York markets, and until money it is required for moving the wool crop, it would seem that exchanges must continue to rule in favor of this city.

On demand loans the rate ranges at 555 per cent. for transections upon stock collaterals, and as per cent, upon Governments.

Discounts move more freely. There is quite an active demand for prime paper, which passes generally at 6½ at 1½ per cent, and is scarce; fair names are negotiable on the street mostly at 8310 per cent. We note an improved confidence in commercial credits.

The transactions connected with conversions are necessarily large, and produces special activity in new Sixty-fives, which are almost invariably by the sellers of Seven-thirties. The conversions at the Sub-Treasury this week have been very large, and if the operations continue at the current rafe, up to the haturity of the notes, there is no probability of any important amount builty then unformed.

the notes, there is no probability of any important amount being then unfunded.

The favorable turn in the Luxemburg negotiations found many of the dorseled at the beginning of the week for covering those contracts. The price of the bonds consequently advanced, and close at 107½ ex-coupon, which is equivalent to 111½ with coupon—a rise of 1½ upon the closing price of last Friday. Five twenties of 1864 and 1865 have improved in sympathy.

Therefore there has been no purchases of Five-twenties on foreign account, a movement which was anticipated on the maturing of the May coupons, and which has usually occurred on the payment of the coupons.

on gold has fallen about three points during the week, in spmpathy with the furprovement in the European situation, and the sdvance of five-twenties and cotton in the foreign markets. The fall has not been so great as was expected to result from the change in the sapect of foreign affairs and the payment of about \$24,000,000 by the Treasury on coupons. There is, however, in some circles, perhaps especially among foreign Dankers, a very decided optnion that, before long, an important export of specie will be required for the liquidation of our foreign balances; the view being based upon the near exhaustion of the contine crop and our inability to ship breadstuffs before the harvest. It appears to be principally this consideration which keeps the premium from declining under the weight of the large supply at present coming out of the Treasury. On the other hand, there are those who hold that the improvement of American credit in

Heavy Failure in Boston

Beavy Failure in Boston.

Borron, May 3.—A small earthquake in financial circles disturbed the equilibrium of operators on State atreet and its vicinity to day, occasioned by the failure of one of the most extensive manipulators in Franklin, Humboldt, Hancock, Huron, Copper, Falls, Heels, &c., in this city, and Corydon in New York. At about three o'clock this afternoon, Mr. John Leighton was arternoon, Mr. John Leighton was arrested on a process sued out by New York parties, and conveyed to comfortable quarters, where he will be confined, awaiting a requisition from the Governor of New York. His failure is moderately estimated at \$1,000,000, one house having a claim against him of near \$880,000, while his assets are inconsiderable. He was well known as one of the most dashing outside operators in the financial arena of the Hub. He was alraid of nothing, and had the nerve and confidence of a lion, as he was among the bears and bulls.

His failure is now the only theme of remark in the streets and at all places of public resort, and at present it is impossible to estimate how serious the disaster may be in quarters where his tracks are not covered up.
